

Hey, I'm Alice and I came from Robert Kett. I found moving into high school an exciting and life changing time. My only worry was getting lost but it's easy once you get used to it. There are also lots of different lessons here at high school, such as tech and drama but my favourite lessons are drama, English and IT.

Also after school there are tons of clubs you can join. I've joined script writing and running. Script writing has really helped me learn and develop my skills. In script writing we are creating our own scripts and Belle (who some of you might know from Robert Kett) helps us lots.

In running, which is tiring but great fun, it is totally up to you – you can chose to run laps, to race or run against the clock and try and beat your score each time.

I've made lots of new friends and so far high school has been an incredible experience for me.

Thanks for listening.
