Mark Scheme for January 2015

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

OCR will not enter into any discussion or correspondence in connection with this mark scheme.

10		<p>Level 3: 9 – 12 Marks Candidates will provide an excellent understanding of the question with clear explanation of the suitability of the visualisation diagram for use by its target audience (website developers). The strengths and weaknesses of the visualisation diagram are considered in equal weighting. The suggested improvements will be well thought through and explained in context. Subject specific terminology will be used correctly and there will be few, if any, errors in spelling and punctuation.</p>	12	<p>The audience of this document is the web developer NOT members of the Youth#.</p> <p>Answers may include reference to :</p> <ul style="list-style-type: none"> • Composition • Layout • Clarity • Use of colours • Use of white space • Fitness for purpose • Suitability for target audience- web developer • Suitability for the client <p>Subject specific terminology covers both terminology related to the creation of visualisation diagrams as well as that related to website design.</p>

Question			Answer	Marks	Guidance
			<p>Level 2: 5 – 8 Marks. Candidates will provide a good understanding of the question with strengths and/or weaknesses of the visualisation diagram being described. This may be one sided. Some improvements may be suggested but they will not be wholly suitable. The audience for the visualisation diagram may not be clear/incorrect. There may be errors in spelling, punctuation and grammar which may not be intrusive.</p>		
			<p>Level 1: 1 -4 Marks Limited understanding of the use of visualisation diagram. Answers will be vague and not necessarily linked to the context of the question. Answers may be presented as a list rather than a structured piece of writing. There may be errors in spelling, punctuation and grammar which may be intrusive.</p>		
			<p>0 marks Answer not worthy of credit.</p>
